

Pokémon Cosmic Emerald Version

LOCATIONS GUIDE [v.12/17/2019]

Authored by SkyVortex

NOTE: This guide only covers the locations of the Pokémon that regular guides and/or the game do not inform you about through normal gameplay/PokéDex (until you've encountered them yourself). Latest update: A few locations and encounter rates have been changed (1/13/2018).

Also, remember that you can hit Ctrl+F to bring up the search function for ease of use. Printing this, however, might use huge amounts of black ink so I don't recommend it. I wanted to use this style though, makes the various other colors stand out a bit better in my opinion.

There is a Notes section at the bottom of this document that may answer some questions concerning obtaining certain Pokémon or reaching certain areas.

=====Chances:=====

Event / ✧ Event / IGT (in-game trade): 100%

Roaming: N/A

Very Common: 25%+

Common: 16 - 24%

Uncommon: 10% - 15%

Rare: 4 - 9%

Very Rare: 2%

Extremely Rare: 1%

Yep, I went with a 'Borderlands loot' colorization theme (except the first 2).

=====Notes:=====

- * - High/Low Personality evolution is the same way Wurmple evolves into either Silcoon or Cascoon.
- ** - Hint if stuck: After obtaining the item, rest up at Littleroot Town (bed) on a certain night of the week.
- ▣ For all normally Trade-Only evolutions (except Clamperl), use Plasma Stones.
- ▣ Mirage Island is accessible on Sunday mornings after capturing 180+ National Dex Pokémon.
- ▣ Event Tickets: Activate Mystery Gift via the questionnaire in Marts. Then you will be able to find the receptionist upstairs in all PKMN Centers once the requirements are met (they are on the questionnaire).
- ▣ **Item/TM Location Changes:**
 - ▣ Thunderbolt (TM24) is now located on Route 123 instead of given by Wattson
 - ▣ Flamethrower (TM35) is now located in the Magma Hideout
